

## The dual protectors

### Filter for the best crystal-clear ice plus highly-efficient appliance protection

Many drinks are refined by different types of crystal-clear ice. Whether ice cubes or crushed ice, customers always expect the purest ice, without any clouding and without any foreign odours or tastes. It's important for the user that every ice machine permanently runs fault-free, is hygienically flawless and is free of deposits, such as limescale. BWT bestico offers this dual protection, safely and for every local water quality level.

BWT bestico filter cartridges stand out thanks to a unique integrated pre-filtration process, which safely removes even large quantities of particles. In a further optimization step foreign odours and tastes (e.g. chlorine) are safely reduced using a special silver-treated layer of active carbon. Finally, dual protection against limescale deposits in the appliance is also safely achieved thanks to a special BWT polyphosphate additive.

This means that not only are BWT bestico filters twice as good, they're also very easy to use, highly efficient and compact.

## TECHNICAL DATA

BWT bestico	15	20
Typical filter capacity in liters	40,000	60,000
Particle filtration in µm	1	1
Height without frame (A) in mm	368	403
Connection height (B) in mm	330	365
Ø Filter cartridges (C) in mm	88	105
Weight in kg, approx. (dry/wet)	0.7/1.5	1.1/2.8
Filter change after month	after 6 or 12*	after 6 or 12*
<b>Order no. filter cartridges</b>	<b>125596401</b>	<b>125596403</b>

\* Recommendation: Replace the filter cartridges regularly after 6 months, but at the latest after 12 months or when the filter capacity is reached. Subject to change.

### Main benefits

- » Comprehensive protection for ice-making appliances
- » Constantly crystal-clear ice – minimizes downtimes
- » Get started quickly and save water with no laborious flushing
- » Easy to install using universal BWT besthead FLEX technology
- » Compact size – also ideal for small ice machines
- » Highly efficient thanks to high filter capacity

### Technical properties

- » Minimizes limescale deposits thanks to special BWT polyphosphate
- » Integrated high performance particle pre-filtration
- » Active carbon polypropylene fibres for constantly crystal-clear water
- » Reduces the content of heavy metals
- » Can be used horizontally and vertically
- » Easy to change filters

### You might also like

	Filter capacities	Order number
BWT besttaste 10	10,000	125501409
BWT besttaste 15	40,000	125501410
BWT besttaste 20	60,000	125252022

- » Active carbon filter system with integrated high-performance pre-filtration
- » Ideal for raw water with high particle content and low carbonate hardness

## ACCESSORIES

	Description	Order number
BWT besthead FLEX Filter Head	BWT besthead FLEX with 2 × 90° elbow connectors, FLEX Insert M 3/8" made from GRP	FS00Z20A00
BWT besthead FLEX Set 1	BWT besthead FLEX with 2 × 90° elbow connectors, FLEX Insert M 3/8" made from GRP, connection hose DN8, 1.5m, with ball valve, FLEX Insert 90° elbow made from 90% GRP, cap nut FM 3/8", straight connector, FLEX Insert × M 3/8" made from GRP, reduction FM 3/4" × M 3/8" made from GRP	FS00Z39A00

### Operating conditions

Input pressure:	2 – 8 bar
Water temperature:	4 – 30 °C
Ambient temperature:	4 – 40 °C
