

# ***PRODUCT LOCATOR***

FIND THE RIGHT WATER OPTIMIZATION

# FOR EVERY WATER SITUATION **THE RIGHT SOLUTION**

## WATER IN OPTIMAL CONDITION AT THE POINT OF USE

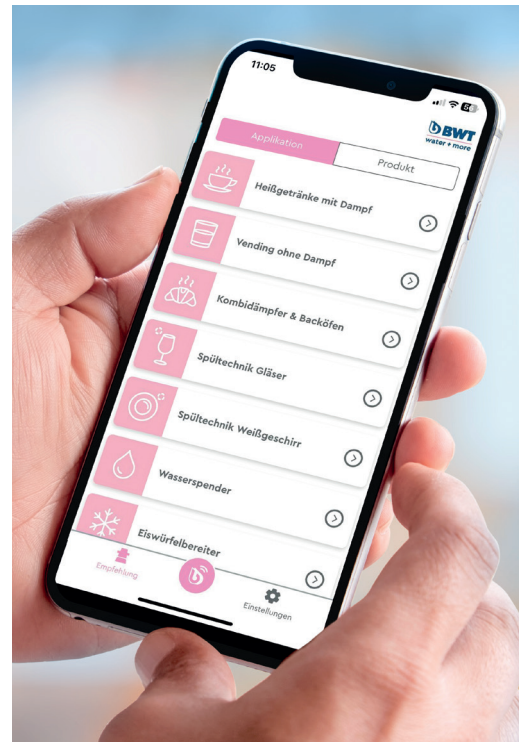

As Europe's Number 1 in water technology, we do everything possible to optimize existing raw water using functional and technologically perfect solutions for every single purpose. No matter whether it relates to limescale protection for coffee machines with classic filters, sensory issues or unwanted elements that have to be removed – in this Product Locator from BWT water+more, you'll find the right technology to brilliantly master the tasks you have for your water at the point of use.

## OPTIMIZED WATER FOR EVERY NEED

Our solutions are dedicated to the very different segments of the HORECA sector. From small bistros and large system catering, classic restaurants and the vending sector, up to the world of baking and cooking, which also needs optimized water.

## EASY SOLUTION AT YOUR FINGERTIPS **BWT BEST WATER PROFESSIONAL APP**

With the app for smartphones or tablets, choosing the right filter system for every single application is child's play.

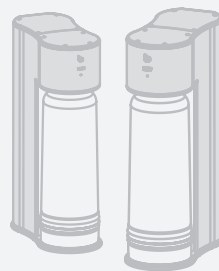

## **REVERSE OSMOSIS SYSTEMS** WITH HIGH-PERFORMANCE MEMBRANE TECHNOLOGY

### **BWT bestaqua ROC**

Reverse osmosis system for all dishwashers, ovens, combination steamers and for steam generation.

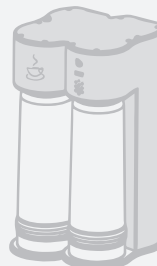

- Compact reverse osmosis system 120 l/h or 180 l/h
- High permeate yield of approx. 50%
- Easy to install and operate through the app

### **BWT bestaqua ROC Coffee**

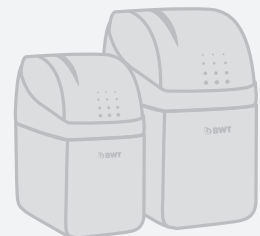

Reverse osmosis system for making coffee.

- Compact reverse osmosis system 120 l/h
- High permeate yield of approx. 50%
- Easy to install and operate through the app

## **WATER SOFTENING SYSTEMS** SIMPLEX SOFT WATER SYSTEMS

### **BWT bestsoft**

#### **THE SOFTENER**

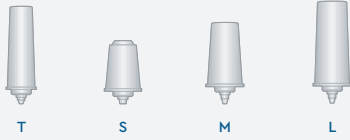

Ideal for directly supplying compact restaurant dishwashers for white crockery.

- Fully-automatic and easy to operate
- Automatic regeneration – quick, environmentally-friendly and economical
- Water for brilliant glass, stain-free cutlery and immaculate porcelain.

# EASY AND EFFICIENT WATER OPTIMIZATION FOR COFFEE MACHINES WITH WATER TANKS

### THE EASY

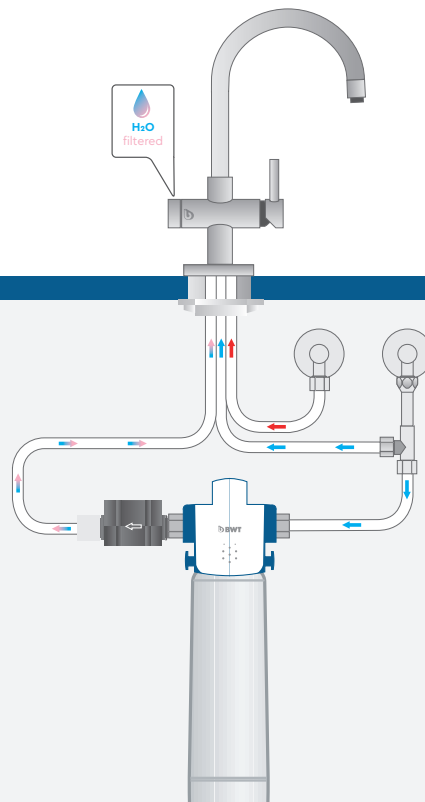

- Limescale protection pad for coffee machine water tanks
- Easy and efficient to use
- Minimizes limescale deposits in the machine

<sup>1</sup>typical capacity at 10° carbonate hardness (alkalinity)

## BARISTA HOME WATER FILTER TAP FOR BARISTAS

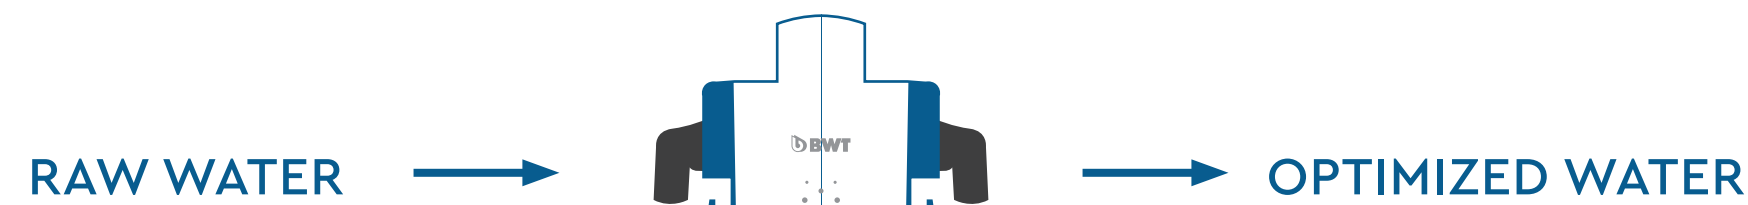

### BWT BESTTAP COFFEE

- A tap that can be combined with all BWT water+more filter cartridges
- Perfect coffee water for the home too
- Individual water optimization – for every coffee machine, for all coffee
- Effective limescale protection for coffee machines and household appliances

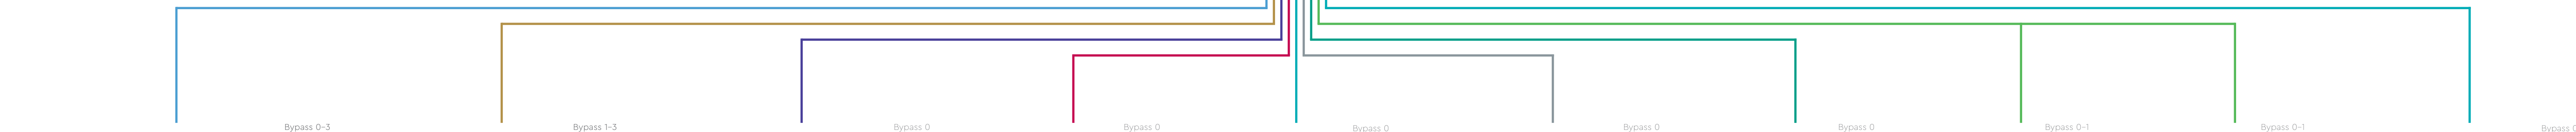

# BWT BESTHEAD FLEX FILTER HEAD - FOR ALL BWT WATER+MORE FILTER CARTRIDGES

- Safely stopped bypass setting with easy-view display
- Refined new connection technology for great flexibility when installing filters
- With EASY Vent flushing valve for easy and reliable purging
- DVGW-tested check valve on the inlet and outlet
- Safe filter changes with no water leakage

- ☕ Vending with no steam generation
- ☕ Hot drink maker with steam generation
- ☕ Combined steamer/oven and ice cube maker
- ☕ Dishwashers
- ☕ Drinking water dispensers
- ☕ Steam generator medical, laboratory use

- ### THE ALL-ROUNDER
- Filter system for ideal water in hospitality (HoReCa)
  - Reliably reduces Ca<sup>2+</sup>, Mg<sup>2+</sup>, particles, off-flavour elements and chlorine
  - Cost-effective limescale protection for all kinds of coffee machines
  - Balanced mineral relationship to guarantee the aroma and enjoyment
  - Perfect basis for high-quality brewed coffee and coffee specialities
  - Highly efficient and cost-effective
  - Universal for approx. 90% of all water situations

- ### THE MINERALIZER
- Filter system for premium water from raw water with low-salt content
  - Mineralizes the filtrate with magnesium as a flavor carrier
  - For use in areas with soft water and in reverse osmosis systems
  - Reduces off-flavour elements and chlorine
  - Perfect basis for brewed coffee and coffee specialities

## BWT bestclear

	2XL
Filter capacity in litres <sup>1</sup>	-
☕	-
☕	-
☕	-
☕	9,720

<sup>1</sup>typical capacity at 10° carbonate hardness (alkalinity), rounded

- ### THE CLARIFIER
- Partial desalination for small hospitality dishwashers
  - Multi-level filtration to reduce limescale and other drying elements in the water
  - Minimizes the use of detergent
  - Stain- and smear-free crockery, glasses and cutlery
  - Less work for polishing glass and cutlery
  - Forms fine bubbles in sparkling wine and beer glasses

## BWT bestclear EXTRA

	2XL
Filter capacity in litres <sup>1</sup>	-
☕	-
☕	-
☕	-
☕	3,560

<sup>1</sup>typical capacity at 10° general hardness, rounded

- ### THE DESALINATOR
- Full desalination for small hospitality dishwashers and sterilizers
  - Significantly reduces total salt content
  - No dried-on stains or smears
  - Minimizes the use of detergent
  - Brilliant crockery, glass and cutlery with no polishing
  - Forms fine bubbles in sparkling wine and beer glasses

## BWT bestdemin PLUS

	V	M	XL
