

K LINE

FOR THE BEST POOL CLEANING RESULTS AND MAXIMUM COMFORT

DESIGNED TO CLEAN RESIDENTIAL POOLS OF ANY SHAPE
UP TO 12 M LONG, ADAPTS TO EVERY POOL FINISH

Excellence
inside!

Aquabot K200

A premium Robotic Pool Cleaner designed to make life easier for residential pool owners by providing optimum cleaning of pools of any shape up to 12 m long, compatible with all pool finishes.

Contemporary design and cutting-edge technology for superior results

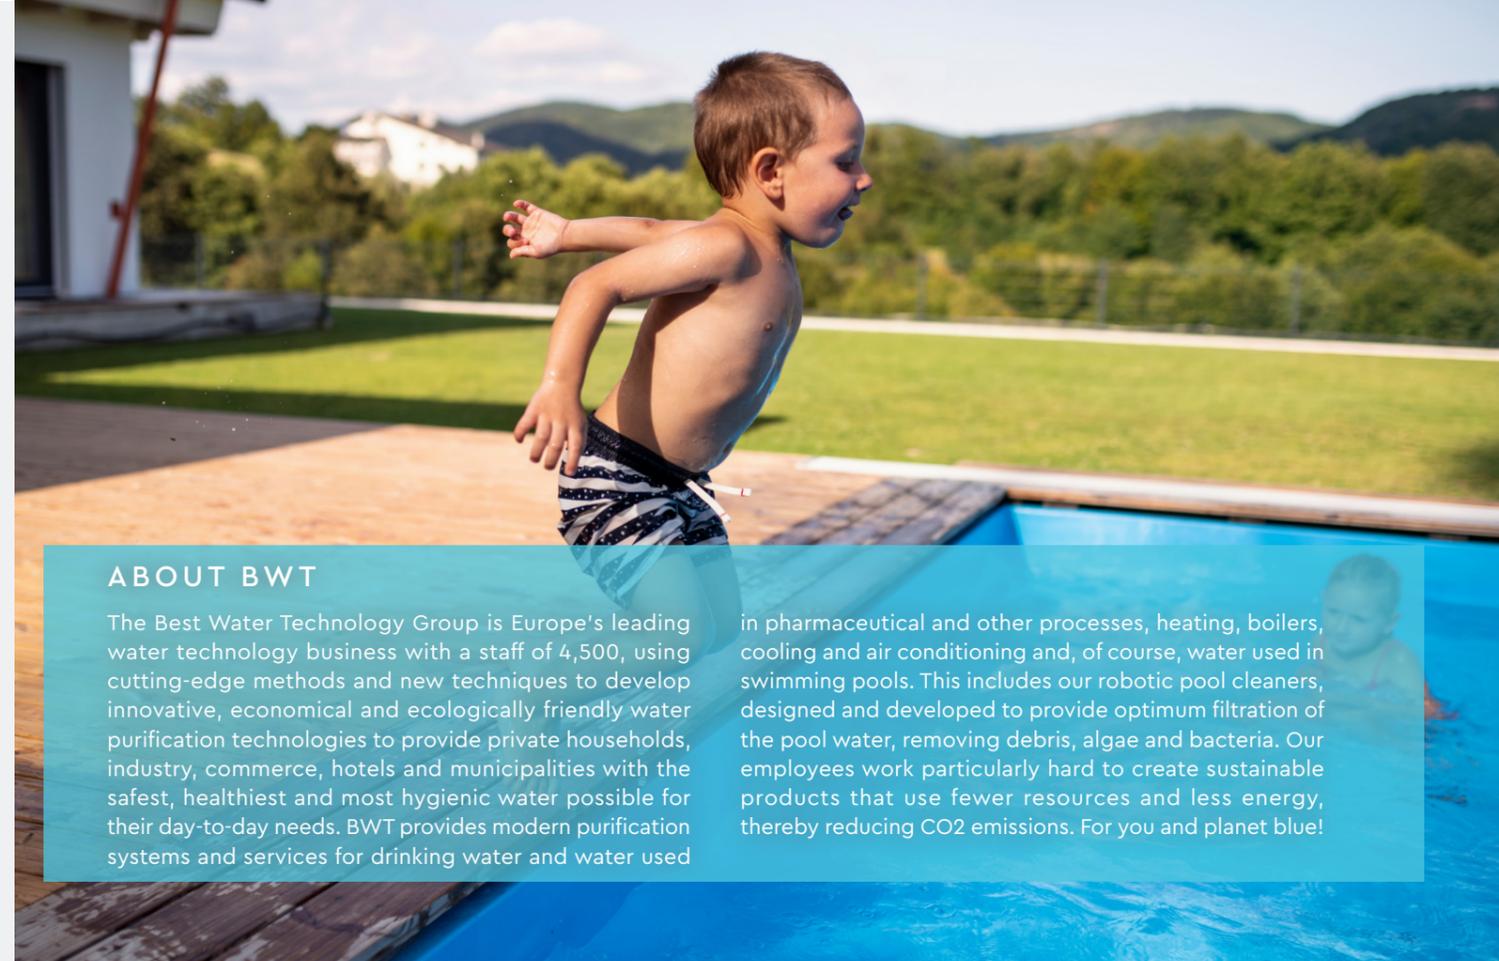

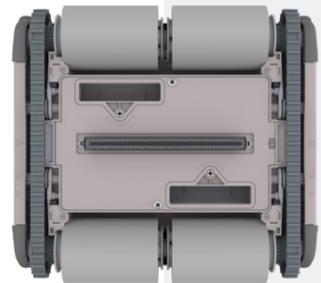

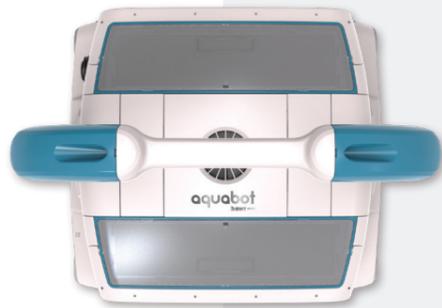

The premium-range aquabot K200 provides thorough cleaning of your pool leaving it spotless every single time. Powered by the patented AquaSmart Gyro System, it uses a smart navigation algorithm to intelligently scan the pool and then clean the pool's floor, walls, and waterline systematically following the most efficient route. The aquabot K200 is equipped with Breezer technology, an efficient and hard-wearing gear transmission; paired with two drive motors and a powerful pump to collect debris, this is one of the most reliable pool cleaning robots on the market.

Aquabot robotic cleaners feature the most powerful suction of any robot on the market. They can double their suction power through precise adjustment of the intake valves. The closer they are to the surface being vacuumed, the more powerful the suction. Suction can be adjusted to efficiently capture the type of debris to be picked up. Thus, close to a beach for example, they can be set down low to effortlessly pick up every grain of sand. The additional vibrating brush scrubs the surface being cleaned for an immaculate result.

The 4D filter consists of elastic 3D microfibre loops, which, coupled with the vibrating motion, maximises water throughput. The vibration improves the suction power and prevents clogging of the filters. The 4D filter traps even the tiniest impurities. From leaves to grains of sand, nothing escapes.

Ergonomic design to make life easier for residential pool owners

Every single detail of the aquabot K200 was designed with the pool owner's comfort in mind – from its premium trolley, for convenient transport and storage, through to its transparent windows to monitor fouling of the filters. Its ergonomic design and handgrip allow effortless handling when it is time for the K200 to get to work. To clean the filter, simply lift a handle to release it from the top-access filtration system and wash it without even getting your hands dirty!

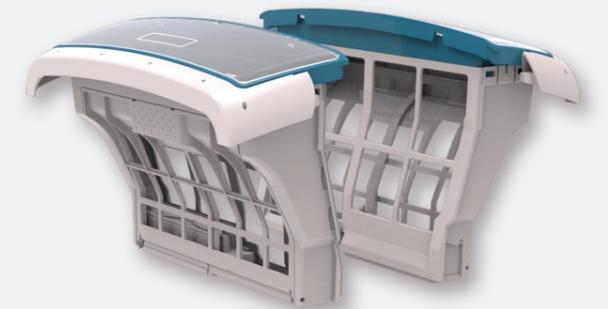

ABOUT BWT

The Best Water Technology Group is Europe's leading water technology business with a staff of 4,500, using cutting-edge methods and new techniques to develop innovative, economical and ecologically friendly water purification technologies to provide private households, industry, commerce, hotels and municipalities with the safest, healthiest and most hygienic water possible for their day-to-day needs. BWT provides modern purification systems and services for drinking water and water used

in pharmaceutical and other processes, heating, boilers, cooling and air conditioning and, of course, water used in swimming pools. This includes our robotic pool cleaners, designed and developed to provide optimum filtration of the pool water, removing debris, algae and bacteria. Our employees work particularly hard to create sustainable products that use fewer resources and less energy, thereby reducing CO2 emissions. For you and planet blue!

TECHNICAL SPECIFICATIONS

| | |
|---------------------------|--|
| Pool dimensions | For pools up to 10m long (All shapes and finishes) |
| Cleaning type | Floor, walls & waterline |
| Cleaning cycle duration | 2 hours |
| Filter type | Hyperfine 4D microfibre filter |
| Filter access | Easy Top Access, handle |
| Brushes | 4 PVA brushes |
| Extra brush | Yes, vibrating PVC brush |
| Navigation algorithm | AquaSmart |
| Gyroscope system | Yes |
| Power supply | < 29 Volt, SPS Basic |
| Power consumption | < 150 Watt |
| Platform | Dual drive, Breezer technology |
| Suction flow rate | 19 m ³ /h |
| Cable length | 18 m |
| Anti-tangle swivel | Yes |
| Adjustable intake | Yes, up to twice the suction power |
| External timer capability | Yes, also compatible with external WiFi timers |
| Weight | 11 kg |
| Transport/ Storage | Premium trolley |
| Guarantee | 3 years |

A world made for you!

EXCELLENCE, INTELLIGENCE, INNOVATION

The BWT world is made for you, and its robotic pool cleaners are designed with you in mind. Don't hesitate, step into an exceptional world.
