

WR LINE

THE CLASSIC CHOICE FOR COMPLETE POOL COVERAGE

DESIGNED TO CLEAN RESIDENTIAL POOLS OF ANY SHAPE
UP TO 10 M LONG, ADAPTS TO ALL POOL
WATERPROOFING FINISHES

Excellence
inside!

Aquabot WR300

A classic Robotic Pool Cleaner designed to clean residential pools of any shape, with any waterproofing finish, up to 10 m long.

Where proven technology and ease-of-use meet for the best end user experience

The aquabot WR300 offers advanced, tried and tested functionality to keep residential pools spotlessly clean, while making life simpler for pool owners. It comes with a premium trolley for easy transport and storage, and handling is effortless thanks to its ergonomic design. The full filter indicator alerts pool owners to that the filters need cleaning. With the top-access filtration system, it couldn't be easier to wash the filters; with the lift of a lever the cover is released and the filter can be rinsed without even getting your hands dirty!

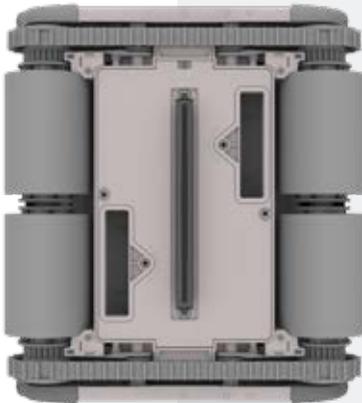

Advanced technology for complete pool coverage

The aquabot WR300 is the perfect solution for keeping residential pools perfectly clean throughout the year. Powered by the patented AquaSmart Gyro System, this classic and proven robotic pool cleaner uses a smart navigation algorithm to scan the pool and compute the optimum route to vacuum and scrub the pool floor, walls and waterline. This, together with its rotating PVA brushes that grip and scrub dirt and debris from any surface and its 4D filters that trap even the smallest of particles makes the aquabot WR300 the classic choice for residential pool cleaning.

Efficient and robust

BWT robotic cleaners are equipped with Breezer technology, an efficient and hard-wearing gear transmission; paired with dual drive motors and a powerful pump to collect debris, the aquabot WR300 is one of the most reliable pool cleaning robots on the market.

Unmatched suction power

aquabot robotic cleaners feature the most powerful suction of any robot on the market. They can double their suction power through precise adjustment of the intake valves. The closer they are to the surface being vacuumed, the more powerful the suction. Suction can be adjusted to efficiently capture the type of debris to be picked up. Thus, close to a beach for example, they can be set down low to effortlessly pick up every grain of sand.

ABOUT BWT

The Best Water Technology Group is Europe's leading water technology business with a staff of 4,500, using cutting-edge methods and new techniques to develop innovative, economical and ecologically friendly water purification technologies to provide private households, industry, commerce, hotels and municipalities with the safest, healthiest and most hygienic water possible for their day-to-day needs. BWT provides modern purification systems and services for drinking water and water used

in pharmaceutical and other processes, heating, boilers, cooling and air conditioning and, of course, water used in swimming pools. This includes our robotic pool cleaners, designed and developed to provide optimum filtration of the pool water, removing debris, algae and bacteria. Our employees work particularly hard to create sustainable products that use fewer resources and less energy, thereby reducing CO2 emissions. For you and planet blue!

TECHNICAL SPECIFICATIONS

Pool dimensions	For pools up to 10 m long (any shape or pool finish)
Cleaning type	floor, wall and waterline
Cleaning cycle duration	1.5 or 2 hours
Filter type	Hyperfine 4D microfibre filter
Filter access	Easy Top Access
Brushes	4 PVA brushes
Extra brush	Yes, vibrating PVC brush
Navigation algorithm	AquaSmart
Gyroscope system	Yes
Power supply	< 29 Volt, SPS 100
Power consumption	< 150 Watt
Platform	Dual drive motors, Breezer technology
Suction flow rate	19 m ³ /h
Cable length	18 m, floating premium
Anti-tangle swivel	Yes
Adjustable intake	Yes, up to twice the suction power
External timer capability	Yes (optional), also compatible with external WiFi timers
Weight	11 kg
Transport/ Storage	Premium trolley
Guarantee	2 years

A world made for you!

EXCELLENCE, INTELLIGENCE, INNOVATION

The BWT world is made for you, and its robotic pool cleaners are designed with you in mind. Don't hesitate, step into an exceptional world.
