EVERYTHING YOU NEED IN A ROBOTIC POOL CLEANER

DESIGNED TO CLEAN RESIDENTIAL POOLS OF
ANY SHAPE UP TO 12 M LONG, ADAPTS TO ALL
POOL SURFACES

Aquabot WR400

A classic Robotic Pool Cleaner, designed to provide everything you need to keep residential pools of any shape up to 12 m long clean and crystal clear, able to adapt to any pool finish.

Efficient and robust

BWT robotic cleaners are equipped with Breezer technology, an efficient and hard-wearing gear transmission; paired with dual drive motors and a powerful pump to collect debris, the aquabot WR400 APP is one of the most reliable pool cleaning robots on the market.

Unmatched suction power

aquabot robotic cleaners feature the most powerful suction of any robot on the market. They can double their suction power through precise adjustment of the intake valves. The closer they are to the surface being vacuumed, the more powerful the suction. Suction can be adjusted to efficiently capture the type of debris to be picked up. Thus, close to a beach for example, they can be set down low to effortlessly pick up every grain of sand.

Connected

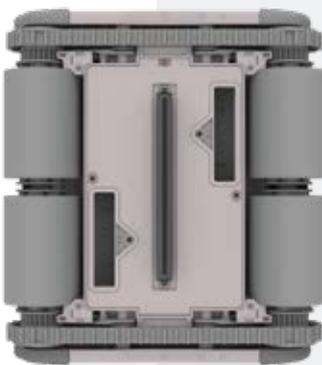

Use the Aquabot RC app from your smartphone to remotely control your aquabot WR400 and enjoy the freedom of checking operational status, driving your cleaner and setting up and scheduling cleaning programs remotely.

Advanced technology for complete pool coverage

The aquabot WR400 is the perfect solution for keeping residential pools spotlessly clean throughout the year. Powered by the patented AquaSmart Gyro System, this classic and cutting-edge robotic pool cleaner uses a smart navigation algorithm to scan the pool and clean its floor, walls and waterline using the most efficient route every time. This, together with its rotating PVA brushes that grip and scrub dirt and debris from any surface and its 4D filters that trap even the smallest of particles, makes the aquabot WR400 the classic choice for residential pool cleaning.

Where proven technology and ease-of-use meet for the best end user experience

The aquabot WR400 offers advanced, tried and tested functionality to keep residential pools spotlessly clean, while also making life simpler for pool owners. It comes with a premium trolley for easy transport and storage, and can be picked up and handled effortlessly thanks to its ergonomic design. The full filter indicator makes it easy for the pool owner to check if the filter needs to be cleaned, and this cleaning itself is made super easy by the top-access filtration system. With just lift of a lever the cover is released and the filter can be washed without even getting your hands dirty!

ABOUT BWT

The Best Water Technology Group is Europe's leading water technology business with a staff of 4,500, using cutting-edge methods and new techniques to develop innovative, economical and ecologically friendly water purification technologies to provide private households, industry, commerce, hotels and municipalities with the safest, healthiest and most hygienic water possible for their day-to-day needs. BWT provides modern purification systems and services for drinking water and water used

in pharmaceutical and other processes, heating, boilers, cooling and air conditioning and, of course, water used in swimming pools. This includes our robotic pool cleaners, designed and developed to provide optimum filtration of the pool water, removing debris, algae and bacteria. Our employees work particularly hard to create sustainable products that use fewer resources and less energy, thereby reducing CO2 emissions. For you and planet blue!

TECHNICAL SPECIFICATIONS

Pool dimensions	For pools up to 12 m long (any shape or pool finish)
Cleaning type	Floor, wall and waterline
Cleaning cycle duration	1.5, 2 or 2.5 hours
Remote control	Yes, Smartphone App
Filter type	Hyperfine 4D microfibre filter
Filter access	Easy Top Access
Brushes	4 PVA brushes
Extra brush	Yes, vibrating PVC brush
Navigation algorithm	AquaSmart
Gyroscope system	Yes
Power supply	< 29 Volt, SPS 100
Power consumption	< 150 Watt
Platform	Dual drive motors, Breezer technology
Suction flow rate	19 m ³ /h
Cable length	18 m, floating premium
Anti-tangle swivel	Yes
Adjustable intake	Yes, higher suction power
Weight	11 kg
Transport/ Storage	Premium trolley
Guarantee	2 years

A world made for you!

EXCELLENCE, INTELLIGENCE, INNOVATION

The BWT world is made for you, and its robotic pool cleaners are designed with you in mind. Don't hesitate, step into an exceptional world.
