

# BWT bestsoft 11

Simply protective

For You and Planet Blue.

 **BWT**  
BEST WATER TECHNOLOGY

### Options

- Connection kit for optimal performance
- Trolley

## Why BWT bestsoft 11?

- Protects machines optimally from calcification
- Simplex soft water plant in compact design
- Fully automatic and simple to operate
- More output and less salt consumption by proportional salting process
- Prefabricated and assembled in the factory for simple installation and start-up
- Extended digital control system for maximum performance and efficiency
- Rotary valve for higher safety for operations

BWT 9900323 Druck: 140310GE

### Technical data BWT bestsoft 11

Nominal connection width (external thread)	BSP	¾" (DN 20)
Nominal flow according to EN 14743	l/h	1.440
Operational pressure (min./max.)	bar	1,0 / 8,0
Pressure loss at nominal flow according to EN 14743	bar	1,0
Quantity of ion exchange resins	l	10
Nominal capacity	m <sup>3</sup> x °dH	26
Nominal capacity	mol	4,6
Reserves of regenerating agent in the cabinet	kg	12
Salt consumption per regeneration	kg	1,5
Water consumption per regeneration	l	85
Temperature of water and surrounding (min./max.)	°C	5/30, 5/40
Type of protection	IP	51
Power connection	V/Hz	230 / 50
Electrical power input	W	15
Connection height for hard water inlet and soft water outlet	mm	403
Channel connection (min.)	DN	50
Measurements (without rolls): width, depth, height (WxDxH)	mm	270 x 480 x 532
Operative weight, approx.	kg	40
Article No.	SS11X01A00	
EAN-Code	4250266704006	

Attention should be paid to local installation instructions, general guidelines, general hygiene conditions and technical data.
