

BWT ESSENTIAL ES Echo

CORDLESS INTELLIGENT CLEANING

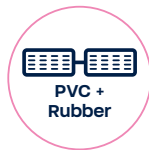

For You and Planet Blue.

 **BWT**
BEST WATER TECHNOLOGY

Discover the **ES Echo**, the intelligent and cordless pool cleaning robot.

Thanks to its cutting-edge technology,
the ES Echo simplifies your pool maintenance.

PRODUCT ADVANTAGES
QUICK VIEW

- 3 cleaning modes, 3 possible cycles
- Cleans the floor, walls and waterline
- Impressive suction power
- 3 hrs of cleaning with one charge
- Mobile app for remote control
- Software updates through wifi connectivity

Completely autonomous and rechargeable,
it efficiently cleans the bottom, walls,
and waterline of your pool up to 15 m long,
regardless of its shape or finish.

The ES Echo is a cordless pool cleaning robot
that combines **advanced performance** with **excellent
value for money**. It's the perfect choice for budget-
conscious pool owners!

Equipped with **ultrasonic radar technology**,
it intelligently plans its trajectory for efficient
and complete cleaning.

Powered by **three motors**, this reliable cleaning
companion is durable and lightweight. It has a 4-liter
filtration system with a **180-micron filter**, ensuring
effective debris removal.

The replaceable battery allows up to **3 hours
of operation** on a single charge, more than enough
time for a crystal clear pool.

Remote control and software updates

The ES Echo is operated by the **BWT Robotics mobile app**, allowing you to select its cleaning cycles and modes. The app will also notify you of the robot's progress and indicate when the cycle is finished.

SmartPark Retrieval System

Benefit from hassle-free robot retrieval with the SmartPark function. Thanks to an ultrasonic sensor, the ES Echo parks itself by a pool wall at the end of each cleaning cycle. With the included hook, you can easily lift the robot out of the water.

Effective brush and powerful suction

The PVC and rubber mix brush combined with its impressive **15 m³/h** suction power ensure in-depth cleaning, removing algae, debris, and other impurities. The full filter indicator will warn you when it's time to clean it: simply remove the high tech filter from the top and rinse off.

Smart navigation

The ES Echo adapts its driving pattern to your pool shape thanks to its integrated gyroscope and ultrasonic sensor. It can also rotate on itself to avoid scattering debris!

**BWT
Robotics**

Technical specifications	
Cleaning modes and cycles	3 cleaning modes: Bottom only, Bottom, sides and waterline or sides only 3 cycles from 30 minutes to 3 hours
Swimming pool length	Up to 15 metres, all shapes and finishes
Battery capacity	7800mAh lithium-ion battery
Robot Dimensions (L x W x H in cm)	42 x 40 x 23
Robot Weight	7.9 kg
Gyroscope	Included
Ultrasonic sensor	Included
Beach entry detection system	Included
Mobile app with remote control	Included
Warranty	2 years for all components
